Two New, State-of-the-Art Laboratories to Serve you Better

We have finally and officially moved. Our Montreal Laboratory is now up and running at its new location. The moving operation itself took place at the end of August after a long planning period. Thanks to the dedication of all our employees, the operation went on as smoothly as possible, although Management had to postpone Labour Day BBQs and picnics until next year.

TWO BRAND NEW LABORATORIES:

6980 Côte De Liesse, Montreal, Qc Canada H4T 1Y5

1212, 172nd Street Hammond IN 46324 USA

Moving the Montreal Lab had become necessary considering the growth of the company over the last decade : more testing instruments, more auto feeders, more chemicals and more computers and servers were purchased in order to keep up with the increasing number of samples, so that our Decarie Blvd premises were now too small to meet our growing needs.

As usual, you will obtain the same high quality and reliable Expert System oil analysis service at both our new Montreal location at Côte-de Liesse and at our U.S. Hammond laboratory with plenty of room for expansion in both the Canadian and U.S. markets.

Contact your account manager for additional information.
